

1 Use the diagram below to tick the correct option.

Q1. Which food chain is correct for the food web?

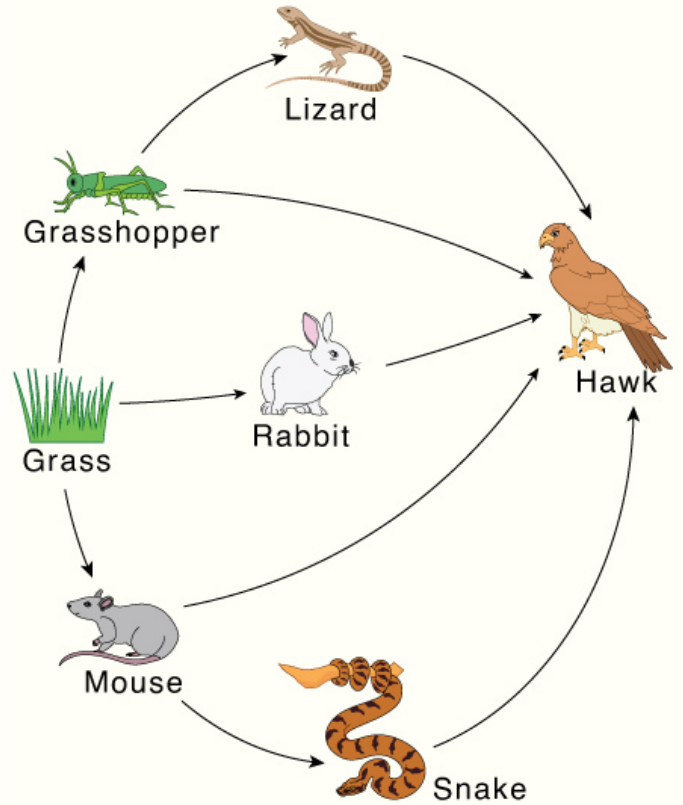

- a) Grass → Grasshopper → Rabbit → Hawk
- b) Grass → Mouse → Snake → Hawk
- c) Grass → Rabbit → Lizard → Hawk
- d) Grass → Grasshopper → Mouse → Snake

Q2. In the food web, the mouse and the grasshopper are:

- a) Producers
- b) Secondary Consumers
- c) Apex Predators
- d) Primary Consumers

Q3. If the population of grasshoppers increases, what is expected to happen?

- a) The population of rabbits would decrease
- b) The population of lizards would decrease
- c) The amount of grass would decrease
- d) The population of snakes would increase

2 Use the diagram below to tick the correct option.

Q1. Which food chain is correct for the food web ?

- a) Grass → Grasshopper → Mouse → Hawk
- b) Grass → Grasshopper → Mouse → Ant
- c) Grass → Grasshopper → Mouse → Hawk
- d) Grass → Ant → Mouse → Frog → Hawk

Q2. Which of the following are herbivores?

- a) Ant and frog
- b) Grasshopper and mouse
- c) Ant and grasshopper
- d) Frog and mouse
